# FEATURES AND BENEFITS

## LINK EDGE

- A reliable aluminium edge for lawn, garden paving and bitumen.
- Economically efficient with the usability and strength of steel, without the rust.
- Completely flexible to form curves, complete circles or straight lines, with ease.
- Can be used to encompass a foundation for water tanks, paths and driveways.

## SPECIFICATIONS

- Varying heights of 40mm, 50mm, 75mm and 100mm.
